Dear Sir,

We confirm our receipt of the 29th inst by this conveyance and have now to own receipt of your favor of the 4th inst with letters from Mess^{rs} Cordhuill & Co to 8th by which we are glad to observe that there was a change for the better and we hope each succeeding period will but confirm this favorable view. The remittances of Canada are on a very small scale and vary the amount of our balances but very little.

There was a sale of a cargo of St Domingo Coffee at the close of last week by us at 54¹/₂¢. about with the usual discount of 2¹/₂¢ per cent whereas 2 or 3¢ below any known price before with the usual expense in Cuba and certain deficiency in the Brazil market we see no necessity for paying color. but colonials are sent here just now the last letters from Petersburg mention sales of White Havana Sugar to the extent of 4000 boxes by Lewis 1800 by Porter & Co and 2000 by others at low prices which reduces the stock in port hands but does not improve the prospects.

Grant Bros^{rs} inform us that instead of having a
 balance to remit. Mess^{rs} Flintz will be owing them
 a small sum — it would perhaps be as well informed out,
 to notice in any thing as likely to come from property on
 which agents of European House may have made advance.
The credit to the Bank being an agreed affair we did
 wish to question their right to ask it. all we required was
 to know when the credit was likely to be paid and for
 you to govern your self in your accommodation to others
 by the circumstances of their unit, in not using it, their
 determination to take him in the street would also be a very
 good reason for their not drawing for it now; it prevail
 with the steam ship owners the amount is about 100,000 as
 to Cash. —

We have every civil letter from the Navy Department stating
 that we have hitherto given perfect satisfaction.

We are always truly yours,

We have not received from the Bank the confirmation of the 3rd of
 the being in order but as they say nothing about it
 we suppose it will be in order.

Gentlemen,

The enclosed for Capt Mansfield of the
 Statesman is intended to deliver and you will oblige
 us by endeavouring to place as much to our credit
 for account of J. P. C. Thistle & Co. as possible against
 the Statesman's Office and freight you remitted us
 £3000 this House has led us to expect a considerable
 sum further pray inform us and if there is any
 thing it may be as well to remit that once at the

My dear Sir,

Dear Sir

We have before us your valued lines of the 20th ult and take due note of its contents. The Committee having now taken to employ the Southey estate with a view to induce you not to allow the Empress to be offered to the House here we could not refuse our concurrence in the measure and nothing more than to be done in the manner mentioned to you. We have since a few days the pleasure of Mr Collins company and have compared notes on the course of trade and commercial prospects for the coming year and regret that we find nothing very tempting. The only opening that offers any chance of profit is in the sale of Cotton for the last 4 or 5 weeks at 18 pence which Mr Collins has proposed to do in 1834

to a moderate extent say the most gradually, as far
as what will be able to make most progress in the
market is the way away state

Our account from the United States is the situation
rather more favorable altho' the progress for many
continued some few sections had however taken place
and at the very latest date our report appears a little
and things would seem. Exchanges are not

months make great difference in the results.

Dear Sir,

We received in due season all your valued
 favor to that of the 14th Inst of South America and
 pay deserved attention to their important contents.
 It is truly gratifying to us to observe your unvaried
 exertions in protecting our interests in the United States
 to your zeal and ability, we feel mainly indebted for
 the security with which our extensive concerns have been
 conducted, and altho' our exposure is great, we have
 hopes that our losses will be but trifling. we are glad
 to observe also your impression that things have reached
 their worst and that a gradual improvement in many matters
 on your side may be looked for. considering the duration of
 the present your commercial community have stood wonderfully
 firm. You have entered a list of dry goods houses and the
 am^t of credit opened to each, and the amount of engagements
 for each some are considerably over drawn for what of special reason
 were given at the time 914 is the number that over no more
 because in granting so much we supposed we were granting
 as they required nothing of what we have in South they

have accounts with two or three others which of course demands
our confidence in proportion and we wish you to look to it with
out much regard to their feelings

Pt & Flint we are accepting bills on you, ^{letter of} ~~direct~~ ^{to} ~~directly~~ this
house. the bills of Lading to be filed up to our order of goods for
Boston if good faith is preserved by Jacob Flint the drafts we are
safe in this respect, but we cannot require the bills, we have taken
all possible steps to secure the balances to come in various operations
what is all that must done on this side

Lilly & Isaac Black are not in our debt, but we observe that
Henderson is and hope you will look to it we did not send
any credit to Barnes & Co for this latter

Shael Winslow & Son request to have the cargo returned at
Baltimore cannot be listened to they must make good their
engagements, it seems we are pretty well covered but further
West India credit, we shall advance no more further until
we hear from you

Heathorn Wood we would like to make money with
our capital but this proposition does not suit us. should
please to make known to them in gentle terms.

from Bremer which makes that of £1896

J. D. Parker & J. H. Brewer an old balance £1676
only should be remitted without delay

Andrew Forsyth Esq. as prompt and correct as any business establishment

Friedrich Black in note the indications of all the orders to him what is well

Cotton and your order relating thereto an all right and satisfactory man selling at a profit of 1 penny per pound, and hope our friends will get hold of large quantities. we now sell as fast as we can but if prices were to decline it would be a question if we should not hold. Comely seems in order he seems pretty fully. the 9th is unceremonious about 180000, but we have particulars of 1800 bales of cotton of which half of having are not yet received. The £20,000 security given to London we conclude every thing seems what he has done to the order of the Bank

J. G. Warren does pretend that a certain remittance for the purchase of Bank shares was for account of another party but as we did not know it at the time of course we could not know it now you will only deliver the Bank shares sent you against a remittance of their value

White Havana sugar pray write to all our friends
in Cuba discouraging operations to Petersburg the
state of that country from the failure of crops
will be very unfavorable for consumption —
and generally we see no chance for high prices for
sugar this year, if prices go very low next Sept,
something may be done in Spellers

Coffee is flat and will decline for some at
least, should the Brazil crop prove as that,
as Brookhead represents it will advance next
August. If prices of Rice go very low it
will be safe good quality at 2¹/₄ or 2³/₈ in
Charleston is low

My dear Mr. [unclear]

Dear Sir,

We have your private letter to that of the 29th ult.

Particulars relating to Sunday it would be agreeable to London merchants if the new regulations were to be introduced on that day as the present day sometimes falls on a good day or Friday and is very inconvenient to us but nothing in the way of change can be effected unless the other parties and agents concur —

Since Primo 16th line might sail on the 7th a 23 if the matter with less interference with outward what you think about it.

Providence sail read along it seems we over the 20th inst. letters addressed to you and kept them away since then —

Flaxseed we advised that it might be a desirable wanted American sewing and fashion prices are high people were trying to get of inferior stuff as sewing and —

Cotton only think the crops will not exceed 180 or 185 lbs bales and that it will come forward but slopily owing to many matters on the other side but we think it will be as well to sell at going rates — which we believe we shall profit at any rate you will sell ours 180 or 185 the money of all that

you mean if not. ask for them and when you find the profit,
a fairly P in them you cannot do wrong to sell.

Yours truly yours

London 1 April 1834

Dear Sir,

We feel much obliged to you for your letter of 27 March and for the trouble which you have kindly taken with regard to the Louisiana Bonds, and we fully understand the motives which have induced the capitalists with you to wait the course of events in the United States before they make investments in American Stocks. The same apprehensions have had in a partial degree the a similar effect here, and but little business has been done in these stocks since we wrote to you, and we are disposed to wait 'till the financial difficulties have subsided in America without forcing the sale of Louisiana Bonds, believing as we do that nothing which occurs there can invalidate their security and that we shall do better

by deferring their realizations till all fears which 'the' natural
 we believe to be groundless shall have been dissipated.

The present difficulties in the United States seem to have been
 so much occasioned by party passion and political feelings on both
 sides, that it is as difficult to predict the end of the distress as it is
 to point out any real cause for it. There were several reasons for
 supposing that money would become more valuable there, such as
 the increased value of most articles, the contracts for several loans
 and undertakings, and the payments for import duties being
 now made in cash instead of by long credits, as well as the payments
 during a year of 7 millions to bear of the national debt to foreign
 creditors, but what has increased a wholesome ^{demand for} ~~quantity of~~ money
 into a disastrous scarcity has been the hostility of the government
 to the United States Bank by which 'the' the means of the latter
 were ~~entirely~~ reduced by which no adequate increase of power
 was given to the other Banks to grant facilities to trade, but on
 the contrary all the sound institutions reduced their discounts
 and engagements, individuals did the same and a consequent ~~crisis~~
 of money and credit ensued. The then state of things there seems

however there has been no real cause for the country was prosperous, the commerce had been profitable and not overdone, the stocks of produce were not extravagantly large, nor the prices extravagantly high, there was not any dangerous speculation upon perhaps in some canal, rail road & Bank schemes, the currency was in a wholesome state and specie was coming in from Mexico. We do not anticipate therefore a long duration of the present distress, (and indeed our last account of 8 March announces an improvement) for even should the Bank question not be settled the commercial body will ease themselves by liquidating old engagements & not entering into new ones, but until the basis of the circulation of the country be finally fixed we fear that neither the internal or foreign commerce can resume its former activity. The price of stocks fell both there and here at first but those of approved securities were much as might be expected, and they have been stationary for the last month. We hear of no fresh creations of stocks & interest free with those already in the market, our accounts from Louisiana are very satisfactory, and we may add as both interest and capital of the bond are payable in English money their value would now independent of American currency. The price here now is 102 1/2 p 100

Dear Sir

We have your favor of the 5th March and take
due notice of its contents. We are inclined to think that
if our minute requiring of a fund Mr. Paine's security good for
£5000. and it can be arranged to make it easily recoverable
withyours (or perhaps there may be some way of giving it
on this side which would be better) that we should consent
to Mr. Paine's going on in this ^{with a credit of £2000} usual way, except that
whenever he had any large operation any thing beyond
£2000 we should wish him to inform us of the nature
of the party and take our opinion of his standing, forward-
ing us bills of lading until such opinion may have reached
him - The agents at Newcastle employed by Mr. L
are in our opinion no judges of the solvency of the
parties as they would not have got him into so many
traps. In case of this arrangement we should want
the Policy on Mr. L's life assigned to us as belong-
ing to the old S. S. Co. & all that you have got.

for as well go to ^{London} ~~London~~ the balance due to us
 whether that balance may be we are willing to charge
 us interest upon. The whole arrangement to be subject
 to renew at every year, in order that we may have
 the power to put an end to it, if it should not work
 to our satisfaction. It is important that the other
 directors come into this arrangement, and that
 it be kept a profound secret. The making the arrange-
 -ment renewable each year will render it more easy
 for Mr. Laidlaw to obtain the aid of Mr. Baird and
 you may well suppose we should not be wanting in
 liberality if things were moving satisfactorily, as to
 the other we would go on without much inquietude,
 we would engage that for our balance we would
 make no claim on the new funds, except for the
 same due to us in account for new operations, we
 should of course hold Mr. Baird. You were oblig-
 ed by endeavoring to bring this arrangement about
 is not to increase our hazards and to make Mr.
 Laidlaw to gain his bid by him. We are satisfied that
 we can get no more from Mr. Baird, him and

if you gain something by the proposed course it will
 be a great deal to be gained ~~and~~

You think in the Council as we fear are the only little
 we have attended an meeting of his agents. But we
 fear we can not succeed in establishing views as a proper
 class - Candidates from New York are to the 1st last
 there are strong hopes of a favorable change in
 many matters

Dear Sir

We have your letter here of the
12th inst. and feel that you are found the way
to answer your inquiry is to the best of your ability.
With regard to the offer of a sum of money for
the purchase of the United States by forcing every one
to give up an acre to some unauthorized person
the answer is simple, and so simple that I cannot
in a letter properly state it. It is however an answer
- that the Government will not give up any more
of the situation of the United States, and the giving
up of the United States is a condition of the
abolition of the United States. The United States
are not to be given up, and the United States
are not to be given up. If things

get right in the Union State as they for very
 are in the case of a few months they are upon
 anxious to supply for their own consumption
 what at the close of the year produced in
 states in Europe with the same amount of money
 a likely to be plenty, since money is so
 still have nothing to do for the present state of
 state. when it was expected things are in the line
 the market then low then just from
 upon the property of circumstances and now
 then have been from failure there are now a
 great. Money slipped a party however a
 dollar to the market state lately and it is
 calculated that at the present time there is
 upon the shipment and account to be taken
 of dollars. As we are about to send out
 in letter if you wish you can get a statement
 to you before we are long. With great respect

and the irregularity of the last account
in your arrangements & in the balance of your
account.

This account is in a state for
almost any description of the account but it is not
a correct one till the end of the year, many things
are not yet done by the end of the year
that the report accounts with & of paper to
14. millions

Dear Sir

We wrote you a few lines by last post
and have now to own receipt of your valued favor of
the 14th Feb. '34. for which pray accept our thanks
We are desirous of preventing the suspension of
business by Mr. Kiddendale if we can do so without
to great a hazard, as to any eventual repayment
of our balance we must wait events. but whether
we are to get any thing or not we should still
feel much regret at seeing Mr. Kiddendale thrown
upon the world at his time of life and without
resources or hopes. We think however that it is
enough that we accept his drafts against his
remittance of his bills on approved Houses
and Mr. Kiddendale's friend should give us

acquainted for any sum not to exceed £5.000
 that may be required to be drawn on the
 on this basis you may arrange the matter the
 amount to be completely covered at the close of
 the year, and a balance sheet made out by which
 we can determine if Howell prove advantageous
 either to him or us to continue. We shall make
 no charge of interest on the balance of amount that
 may be found to be due when the pending concerns
 are closed, but place that balance to a separate a/c
 as a suspended debt, and we will write to Mr. Bell
 and advise her to do the same. We work a statement
 from the 1st of his ^{proposed} annual expenditure on the reform
 plan and the prospect he has for his correspondence
 business, say the amount of Comings in. Mr. Bell's
 concerns should be kept in his Old Book, and a new
 set opened for the new business, bring in all the out-
 standing accounts that were work into the new

transferring only the suspended accounts open in
the old Books, of the new books, thus found he
will send us a balance sheet that we may know
exactly how he begins. We have health to give
the standing of the various correspondents, for Mr. L.
patron, given us in about 10 days in the mean time
we may consider the following as approved

| | |
|---------------------------|-------------|
| Robt M ^c Inten | Londonderry |
| W ^m H. Guyer | Bristol |
| W ^m H. Thorne | Liverpool. |

Of late some drafts are made all night from various Banks
but we don't wish Mr. H. to date to draw longer
than 30 days or any one. If you find that Mr. H.
Guarantees cannot be obtained then the concerned drafts
must only be drawn under your sanction. Mr. C.
explains to you the transaction of which you will
advise us. Should he have drawn under your sanction
as mentioned in your letter the drafts will be duly
honored. And we have hopes that with a little
trouble on your part and some such arrangement

we may enable a worthy inmate to relieve his father

Gentlemen,

We have received in course your favor of
the 9th Decemr and the documents enclosed. the
letter therein have been duly accepted. We are at
a loss to account for the origin of the report to which
you allude and if we think it originated in malice
should feel disposed to trace it to its source, feeling
however beyond the reach of any calamity of the
kind. we are rather disposed to think it has arisen
from the failure of Mess^{rs} Fowler Brothers and Co by
some inexperienced person confounding the names
and that the arrival of the Antoinette of Charlotte
will have put an end to it. We shall have
occasion to address you shortly by another com-
munic and remain Gentlemen

Messrs Russell &

Gentlemen,

We have received your circular favour
that of the 20th inst and note the contents
you press for British goods have been well supported particularly
for Cotton Twist & Cotton which concerning the large import
would lead to the belief that the consumption is greatly
increasing that is a very important feature and as it is
increasing in the value of Cotton in Europe we shall feel
greatly obliged by your keeping us fully advised on that
kind of Cotton Twist and Cotton goods can more be intro-
duced into general consumption of the lower classes it
appears to us the chance trade may often be begun and
prevent some of it. Cotton goods are too high here
and it seems doubtful if any important decline take
place for a year to come and in some goods long bills
and the late heavy cotton duty to the high price
of the raw material cannot decline for some time
but the way to the great demand for the first

minor, is now held at 1/2% at 1/2% of dollar equal to 1/2%
 of price. your quotation of 1/2% therefore leaves a wide
 margin for speculation. Cocaine is held at 1/2% of
 all the. this stock is heavy. The Sea duties here will
 we think remain undisturbed as in the last
 act sent you. Some movements appear to be made
 with a view to the importation of Tea but we think
 1/2% there could have been expected and the chief
 operators will we think rely on the Company for
 taking their bills, you cannot therefore expect the same
 facility in negotiating on American credits as before
 fifteen or twenty years ago. The best mode
 of placing funds in China now is to take Company
 bills here on Calcutta which can be obtained at 1/2%
 of 1/2% and we should recommend this course to
 American friends. We understand there was a report
 at Canton when the last ships came away that
 we had stopped payment. This we suppose must
 have been from mistake to some one who had heard
 of the failure of Parth Cochrane & Co and that the
 arrival of the Antares & Stratford were after

The date of your last letter, will have put an end to the story, and that you will have discovered somewhere it originated if there's malice —

Nawelk is my flat pint now but we hope you may have succeeded in procuring a part of our order at least. Should the stock of Tea remaining over at the close of the coming season prove large the Hong Merchants may feel inclined to ship, and we need not inform you that we shall be very happy to receive Consignments making returns in British goods or on bills of the Company as may best suit —

My dear Sir,

I am happy to learn from
our mutual friend P^rC Labouchere Esq^r that
we may soon expect the pleasure of your company
on this side the channel. but I hope you may
have time before you set out to comply with a
request I have to make which is that you
will be kind enough to speak to Mrs Lellum
in regard to a claim she has against John
Liddendale of Petersburg It appears that
Mr Liddendale has sustained severe losses by
bad debts and is without means to pay
what he owes to Mrs Lellum Mr Davis and
ourselves we have thro' a friend investigated
the state of his affairs and regret to find

77
that he has scarcely any thing to pay with. This business
however is thick by our friend to be worth pursuing as
he has several orders in hand from good people and
said friend suggests that as the only means of
ever obtaining a dividend, and as likely to lead
to the recovery of his partnership that we must strive
to continue his business, relinquishing all claims
for the Mon^y. now due, for one or two years until
we can see what the business will really produce
as he will trust no one but with our sanction
and will be over looked by our friend Mr Roper
we are disposed to make the trial if Mrs
Silliman will consent to waive her claim for interest
and suspend her demand for repayment for
two years, as we will do with ours and Mr Ranz
with his, there being no other claims on hand
it will probably be sufficient of Mrs Silliman writes

there shall be forwarded to her at the close of

 satisfaction, reply, as soon as possible, that Mr L.
 may meet no interruption in his business.

Trade is generally flat here, and Coffee is particularly
 low, as might be expected during the period of
 commercial prostration. The short crop in Brazil & Cuba
 which we think may amount to a deficiency of
 950,000 millions will probably have an effect, and
 inasmuch as the price may recover.

The House has drawn on you against the
 French cargo to day to this we presume you
 have no objection and we propose to reimburse
 ourselves for the draft drawn against the cargo
 from Rio amounting to £20000 & 9000. we shall of
 course hold ourselves responsible for any deficiency
 in the proceeds. Having large sums to ship in

 convenient to us and we presume it will
 not be disagreeable to you.

We have your favor of the 14 inst.
recommending the suspension that as others were
suspended at 90 & 92½ in your market that
you coming down to the latter price would do
no harm, if you think it will do harm
to lower the price to 92½ you will not do so
our impression is that the strong temptation
to use the inferior seed by reason of the great
difference in price will prevent our advancing
our rates any high, and we should say you
should make a difference whether you sell
4 casks or 100 the latter quantity might
perhaps be sold at 92½ without producing
any mischief, however there can be no
harm in your holding at 94½ until what

we have Ireland is sold.

Tranquillity is restored in France so that
you need not fear any influence on your

Mr Richards Sir Esq
Calcutta,

Dear Sir,

Since your letter has not been very
and in particular that to Bengal the China trade has
attracted pretty general attention and the expectation
of the changed state of things which had naturally con-
tinued about last date before, seems to have checked specu-
lation in your Direction: Those who cannot remit their
stock to make funds will surely be better off than those
who trusted to credit, since we remark nearly as great
a fall in stock as in bills - Indigo is well supported from
an opinion prevailing that the crop cannot exceed
for another year. Salt Peter is going down to prices
prices and of the payments are large we shall expect to
bid it at 24@25/ since here now Egyptian saltpetre
and Spanish nitrate of soda to compete with it Sugar
is sufficiently depressed and at the same time in particular
from a recent arrival at a low rate and pepper it may
from a good article by & by. Rice is greatly depressed

Corn abundant and general prospects good for crops.
Raw silk one point fewer are quite too high and we
 are expecting a large importation from China if there
 should be any check to the demand for silk goods, then
 article will go very low and Rangoon silk ^{goods} may be
 as cheap as in consequence

Cotton goods, are liable to some reaction in price, as
 freight rates have some reference to the Manchester
 article and the price of the raw material, what may
 be a good deal depressed before next year at this
 time - Sugar supports a good price. Cinnamon
 is likely to fall which may affect cardamom - on the
 whole you will not be safe in shipping any thing except
 tea & nutmeg at any low rate. Indigo as you know
 is liable to great fluctuation if your cultivation is
 managed to safe measure for next year our prices will
 go very high and you can safely ship at considerably
 on the price of last season, or say at 2600 Rs. for the
 first quality with an exchange of 2 1/2.

Opium the fall of all the large stores will prob-
 ably leave this trade more depressed and the last
 quotation of 1000 Rs. for Patna seems very

trusting we have directed our North friends to lodge
 orders with you for shipments of this article to Glasgow
 It is unfortunate as things have turned that you
 had not taken all your Capital in silver as you could
 no doubt have made good use of it on your arrival but
 we hope the determination of the Company to label
 bills in 1834/5 will restore the exchange to a moderate
 rate again. The Americans will do less in China
 in bills and a good deal of Capital will run away in
 another just way to Bengal. Your Brother has
 arrived from the United States and may be written
 shortly as he writes from Hampshire

Dear Sir

The late act of att. your att. operation which must be thought of as a result from on the war has so far been very well supported and if nothing happens will be sufficient to interrupt the continuance of peace and general commerce in the commonwealth. I have very little fear that your power will cause some momentary depression; the country will be brought to its former state by the year. However be kept in mind however that our forces are comparatively light and if our supplies should reach the power, it will be a great advantage to the country.

upon 900 to 925 for both the European
 market. Lower prices must be thrust in
 submitted to before the close of the year
 the consumption in this country will require
 some discount for goods from the United States
 in order to sustain it later in the year at the
 present rate. In general business is done here
 with the exception of thread & cottons which are
 done at about 10% discount. As for
 some to have seen its lowest point and
 then an buyers of sugar at the quotations
 should say as low as 10% they are worth
 attention. The price of sugar is very dull now
 and may be greatly depressed on your
 side. At 20 I have lost for ordinary & good

 not much say in business. I wish

Dear Sirs

Your advice from America are in the
whole satisfactory. Ward thinks there will not be much
more purchasing the Bank will assist the new stock merchants.
You will see Cotton as long as your present prices hold.
a good supply will no doubt come in on each change of price.
Ward makes it out that you are to receive between 50 & 60 p
bales this year. If you will not want for occupation.
You can ship 500 bales of Flaxseed to London daily they are getting on fast there is no
other way but for you to keep firm and keep off
as we direct if Mr. Hancock requires more
credit forward without waiting to hear from
us. Things are rather brighter here. The Trades
Union's procession was a complete failure. We sold
a cargo of olivaceous Sugar to day at 49/6 up to 59/6

Dear Sirs

We have sold several parcels of
Tallow as advised in our general letter (thinking)
with Mr. Kline & Co. when that general price could
be supported. the market is especially dull and we
look for 38/ before next December. - Your purchase
of Iron is noted the price is fair but the state
of things in the U States (altho somewhat improved
at the last dates) is such as to lead to the belief
that the consumption of Iron and Hemp will
become what diminished and many think the
country will not recover from the shock it has sus-
tained for one or two years to come. the sale of Iron
under these circumstances will be slow. whatever
it is more desirable for you to reserve on the spot
which we hope the numerous American ships will

with sugar this year to your port will enable you
to effect to some extent. We fear some of the
large railroad undertakings in progress in this State
may be suspended which would have a bad effect on the
English Iron markets. Truly —

Sugar the prices at Havana 3d & 4d were very high
24 & 30¢ per outboard for such as would scarcely sell
at the same prices here. but generally sugar looks
well, and is likely to improve it is the White Havana
only that is not likely to remain stationary as its
high value compared with Brown & Orleans is given
in your market. only and you are likely to have
an abundant supply —.

Cotton is very dull here at 25¢ is the highest price
The stock market is very active and prices are
creeping up. Gov: have determined to raise the
4% fund stock to 3 1/2 to effect which considerable
sums must be put into circulation. This has
already had the effect to raise Consols to
92 1/4. This abundance of money if allowed

Continued long. may influence the value of muscadine.

Wool is very dull and prices have risen about
20 p cent from the highest point at the reduction
there, beginning to be some inquiry but in the
absence of the American demand for cloths. we see
no reason to look for any improvement in wool
prices

Sir, we have before us your favor of the 20th ult. and have only considered its contents. We obtain your objection to assign over to us the policy on your life until some definitive arrangement is made to settle all the old claims on you. Altho' we considered hitherto that we held this policy as security for our unsecured advances to you and that it should be liquidated a portion of our balance we have no wish by insisting on our rights to prevent an arrangement that shall enable you to go on with the hope of recovering yourself. We are ready therefore to take your promissory notes for 10000^l of our debt payable within years without interest 10000^l payable in 5 years & 10000^l payable in 7 years with interest as full holding the policy which must be assigned to us as security for your completing these arrangements

 You will understand that for any future unsecured advances,

from Mr. David for any unexpired engagements we may
be required to come under, and as we have proposed
that Mr. Liddell's agents should request our
approbation of the parties before orders are taken
we think Mr. L. will run very little risk and
if you will be so kind as to aid Mr. L. in his

if it answers the purpose of clearing of burrs &
without destroying the staple of the wool it will
prove a valuable invention and increase the value
of the wool very much —

Cotton as you state is getting fully high enough on your
side but the demand is good on this; we will fully
and shall keep our stock down as much as possible
your operations on this are all so far profitable, and
if your crops do not exceed those sales present
prices in Europe will continue, but you of course
will stop operations when there do not yield a
profit taking the below present prices as your guide
Coffee from men in former quarters, on account
of stocks in the Island will probably show an
increase of some 20 millions, the consumption
both of Coffee & sugar have increased in Europe
and the same may be said of Cotton, not so
perceptible in the statements as the stocks of
goods are to be taken into view; To sell Coffee
now is out of the question unless at a value
of half.

Parkers coffee would probably sell better in the United States than in this sea and we shall not be surprised to see shipments to the States, before the close of the year

Ferdinand black seems very gentlemanly and we are truly sorry that you should be separated by anyone, he really seems to have an moral principle

Waters & Co. has surprised us but we are in no way interested, lately we have received many drafts of theirs on B. & C. but B. & C. are their regular correspondents we believe

Super the shippers of White Havana & Pinar del Rio pay very much at the price they are paying at last dated. the best white are not at all 25% off from which is to be deducted small dues freight & insurance. Yellow pay a better price in proportion. —

In general things come round much better in the United States than in Europe & America

and in fact much indebted for your exertions in
protecting our interests—

We do too much you will remark on the useful
lost of which the policy was placed under your
control, say the material as above say 5000
ought to be the cost.

It is said the policy has not been so extensive
as was expected and the quantity of insurance
carried with American that has been paid into
the British market has exceeded our expectation
we shall have half of the quantity shipped to
be sold on for us by you and altho' the profits
that will be made on the balance remaining
to be sold a cost will leave no fear of loss
if we do not see that any profit can be
made. Cracking seed is scarce and the price
with 50% 50% if the crop should prove bad
that you may keep prices for cracking very high

Dear Sirs

Our letters of Packet announce
further shipments of cotton to your address
to the extent of 4000 or 5000 bales. and as the
Company thinks it will be well to sell so as to make
a fair average of prices for the year and some
of the consignments belong to ourselves. What
amount realized as fast as possible at going
rates we would propose on your the importance
of watching closely your market and not let
one occasion pass. You are probably aware that
the West Indians are large holders in speculation
for Guernsey & Cork's friends, and of late now will
soon be desirous of selling. Another point here
would guard you against in the rapidity of
sales and to keep constant your Brotherly life
some times very materially in the valuation

which should be compared with former ones, for
 nearly in their present state the same as ever

in regard to the sea and the new position of the
trade, which have induced them to act for
the benefit of our American friends. our object
in sending a ship to China being rather
to promote Commerce than to
embark largely ourselves in the business
We had hoped that for a time at least the
sea trade with England would be a pro-
fitable one in the hands of Americans but so
many agents of Canton House have

Dear Sir,

I have been asked to forward to you the enclosed proposal for a loan of £10,000. - to a very respectable party here, upon the prior mortgage of the estates mentioned, and if it would suit you, at what rate of interest, and what commission upon the sale of the prior use either your house or the Rotterdam house would advance the money and to the business. The whole of the prior use of the estates to be assigned to the lenders - the owner will want none of the proceeds for his personal use but I am sure you will be well in sending out supplies to the estates, and the remainder after deduction of the charges would go to the liquidation of the debt. The party would make the arrangement for either 5 or 7 years. The proceeds of these estates used formerly to go to Campbell & Co. - now go to P. & Co. - the estates are mortgaged

to Mrs. Richard Macintosh see also as their partners require
the repayment of the mortgage of 30,000. - The same amount
£19,000 - to complete what he can himself raise & he would
give a clear mortgage of the two estates for the loan of £10,000 -
If the operation is likely to suit you & our other friends
he will stand us in any body else offering us any share the
amount of the estate & we could see that you are legally
safe - I have no personal interest in the matter but if
you wish for Sarnham business the proposal seems tempting.

We have a packet from Mexico & middle of April. It brings
news - from Tampico at 670 in the produce of the customs

he does not yet see the dividend but that the Treasury is empty.
There was every probability of the coin was under Brass and
Copper being speedily terminated. Trade looked well. By the

The ministry has seems provisionally settled and it is thought
will live out the session without any material change of

it right to mention the report to you in order

London 10 June 1834

Gentlemen,

I reply to your valuable private lines of the 2^d inst. we have to inform you that we think you may calculate that the bills to which you allude in your letter will be all paid for independant of the security of the House here you probably hold a slip of John Brown & Co. you will run very little risk in shipping off the Iron. As regard to the standing of the House we have heard nothing that should give you so much alarm... it is probable they have been doing quite as much as they ought to do. and that the delay in my passage in the United States by delaying writtings may have caused them some slight inconvenience. but we should say they were doing a good business. and doubtless to be making money. This without our responsibility.

Yours truly
Messrs Alex. Barclay & Co.

if laid down in this manner at 24 or 25/- when no objection
 is taken a quarter is a third interest in any cargo any share of
 1500 or 2000 hundred lb to be taken at 10/- a cask and a remainder
 at 10/- per cask. Better continues here and the party was contented
 that, on supplies from Egypt were to be supplied and from Bombay rather
 less than last year. The rest wanted at present, and have had
 rain and the wheat crop promises a fair average.

of the Ship Diana of London

You will proceed with the ship under your command
for Malacca then deliver the enclosed letter to Messrs Robert
Lowe & Co to whom you will consign your ship and the goods
which have been assigned to you as per invoice under separate
cover. You will have three goods men the goods of which are
bound to freight for Malacca such the least possible delay
and take on board as much to be sent to your ship as you
without increasing the cargo as much as being a great
object that you could do. I think before the end of the year
on your arrival at Malacca you will deliver the goods to
be sent by the lines of boats in a private way to whom
I deliver the receipt if you desire to the consignees and
you will send to them every accommodation as you
can make by showing at Malacca a bill of lading for the
goods and by so doing you shall be enabled to delay
to your ship. You will deliver your ship to Messrs Robert
& Co who will probably have a cargo of goods ready for you
which you will take on board and send all papers to
London. If no cargo has been bought and sent before

such notes can be purchased within our limits. Then you will
be guided by the directions you may receive from the bank.
And if should you wish with decency after receiving your
specimen for repairs, you will consider the forms annexed at
last as an endorsement, and apply to them.

Remember also in mind that no efforts are to be used toward
gaining by the owner a specimen of money in that the specimen
is a small specimen. Also that no person having been
permitted. Therefore pay particular attention to the comfort and
and cleanliness of the coin, and see that they have a clear
distribution of their face, without having it be known that
you previously should be returned only with system and
regularity that you can always know to a certainty
what quantity of such article you have on hand.

In your services during this voyage in connection to you
monthly wages we agree to allow you and your family
living on the sale of the goods consigned to you
to pay on the sale of the goods you may take up to
the bank, and if not sufficient on the freight of
your ship, and we have agreed to charge you on
your part the very rate of freight and deducting from
the said freight to pay money. To be for the benefit of
you the time of your departure until your return.

Sir

We have delay'd for a few posts replying to your letter of the 25th Mayth. being desirous before doing so of obtaining a little further information of the standing of Mr. Lewis Roper about whom your enquirer, inquires. We are happy to say that what we learn of him is satisfactory. He did not we believe lose any thing by the failure you allude to. We should say that he might be trusted to the extent of £1000— if a larger sum should be required, previous enquiry will be necessary both for your interest as well as ours.

We are surprised to find from your letter that Mr. Baird objects to becoming guarantee for you to a moderate amount, as the whole of our arrangements was based on the supposition that he would, it is now for us to consider whether it would be prudent in us to do for you what your own family cannot.

refuser but we will not come to any conclusion till
 you have made a fresh attempt to persuade Mr. Willd
 to come forward to assist you or rather to show his readiness
 to do it, for we hope with tolerable discretion on your
 part he will never be call'd upon to do more. In the mean
 time you must not remit us bills except on parties whose
 standing is known to us. You have remitted a larger
 amount on John Barker than we like, & or \$100 - is the
 utmost he is entitled to - Thomas Henry - Dublin the same
 to \$100. Walker we think may be entitled to about
 double that amount but not more.

We hope to have a more favourable account from you
 of your application to your relations to remain

London 17 June 1834

Gentlemen,

We are in receipt of your valued letter of the 25th & 27th January, and pay due attention to their contents. It was truly unfortunate that the Antislavery Aid Act arrived at the right time about the 1st Decr. and as from the day has been lost. Still continues to sell slowly, at our late quotations a decline may take place but so long as the manufacturing branches of trade continue generally active and prosperous an improved condition of the mass of the people in Europe may be inferred and low prices that is very low cannot be expected. See the Stock of the company continues to be looked to as likely to cause low prices in 1835 in the same circumstances or improved lead to the belief that domestic supplies may be expected in that year. The prices on this side will probably not be high compared with what they will average in the free trade system after it begins to move regularly. It is not in all probability that the want of demand for your full supply of the same (what remains over in Mass^{rs}) in Mass^{rs} may create a short supply from the interior in 1835 if this could be remedied by

the Hong Kong merchants they would be willing to consign their surplus
 stocks to England in lieu of selling them on the spot at
 any low prices. This course might enable you to procure as
 soon as heavy consignments in an advance and we authorize
 you to make such advances to the extent of £5000 of the cash
 finding out that the Tea is of good current quality we
 suppose there will be less difficulty the coming year in
 negotiating paper on London and altho the rate may
 not be so favorable as one could wish we think it will
 gradually become more favorable for drivers of the
 trade you are desirous. In private you being informed
 by the limited number of letters of ^{the London} and by their efforts
 to make use of their position to draw American business
 to them we recommend your cultivating a close correspondence
 with Messrs. Lister & Co. of Calcutta and Messrs. Lister
 & Co. of Bombay. Their forms are our correspondents
 and we know them to be connected with ^{very} but
 regular American business and altho ^{as} ^{the} ^{at} ^{the} ^{at}
 we think them quite safe the former have ^{£100,000}
 of ^{£100,000} and the latter about £100,000 but the former
 who remain are a partner in both with John Richardson
 a partner of the former and a partner in the former in order

'and that into your power to draw on Calcutta
Bombay & a limited extent in preparation to the
conferences they may have in you but in preparation to

go far to secure navigation in China as early as in any
other place, against any views you may have on Calcutta
and Bombay you will receive ideas like in London
& be enabled to take advantage of them.

Engagements of British Manufactures. It is difficult
to say what course these virtuous states in have concerted
that we are rather pleased by our relations with the United States
not to promote this as interfering with the value of the goods
of our American friends, but it is probable that with a view
to promote our own business in what has been or two
ships running and if our American friends come to advantage
we shall of course find it for our interest to promote their
interest to go far returns to our advantage. We shall therefore
ask for the most precise information as to the state
of your markets, both for imports and exports, and
a great point will be to have early information of any in-
crease in the consumption of British, American & other
goods, another article. Cotton is very interesting to us as
it has in the value of the American crops, by Hongkong
in the Bombay market. The high prices that have
been paid at Bombay will probably have the effect,

to increase the growth. I believe efforts will be made
in the United States where a safe large way may be taken
1800 a large labor force are therefore likely to follow next
year the year after with the European markets, unless you
anticipate that large pace with the increased production
in Europe, and thus diminish supplies from that quarter
to Great Britain.

Quintessence is held very high and not expected to fall for
year or two as the market of South America is greatly
increased.

Quintessence the coming depends to large

We send this by an ship (Dana) Capt. Butman ^{the} under
an arrangement to take a cargo from Messrs Thomas
Leahy & Co. as well as goods instead of him, but the
cost is a considerable amount, & freight, chiefly
to balance on long bills forming the balance of the
company's paper - should Capt. D. call on
you for aid please to render him every assistance
in your power.

We have a confirmation of the Death of your mother
at the Cape of Good Hope. If this would leave
an opening in your House for our friend Mr. Fisher we
think our mutual friends at Boston would feel greatly
obliged by your inclining him to your new arrangements.

Dear Sir

I reply to your several interesting private communications we have to remark that we generally agree in your views. but with regard to Indigo we are wide apart and believing that any erroneous opinion generally prevails we have that it desirable to put those of our friends particularly interested in possession of our ideas and having a private press in our Office we have had them printed as annexed but we wish them to be kept private for we ourselves large holders of Indigo on consignment. we do not of course circulate them at all on this side and send but two to India. The low rate of Discount may have the effect to suppress of some articles and advance those of others for trade is on the whole in a favorable state. therefore we do not look for an immediate decline in Indigo beyond I & G. at the coming sale which will be very large. Dear Sir,

We annex some remarks on Indigo which we have had privately printed but not circulated except so far as to send three copies to India, and two to the United States. It is therein stated we see no chance for eradicating the article except fromabad reason in Bengal. It may further be considered that the Company will no longer be the supporters of the article, and the chief portion of the Indigo held here is supposed to be held with money borrowed in Lombard Street. We give you these particulars in order to have your determination as regards to sales of that we have received from your House. We are Dear Sir

Gentlemen,

Our dates from America are to the effect
 business had not revived nor was any improvement
 expected for many months. Iron was particularly scarce
 Swedish had been sold at \$80 on 12m credit, new
 table was worth about that sum, and P S I. about
 \$90, under these circumstances we would suggest your
 consigning whatever you ship this year either to your
 agent or ours by which the commission will be saved
 and we suppose you will be able to secure freight at
 \$3. 50m which with the favorable rate of exchange
 will in some degree make up for the low price
 we may probably be able to run off 300 tons here
 in the course of the season. but we strongly advise
 sales of P S I at Petersburg as it does not sell
 much higher than the new here or rather the latter
 steamer ship to New York now at \$7. 50m and
 freight is likely to be very quiet for some time.

we mention for your Government in case you should
see opportunity to ship freight for a while, as to the
poth. We have a better feeling for sugar & molasses
than the supplies from Havana to you just received,
used in any case 10000 boxes —

The duty on Olive Oil is to be reduced hereafter, to
often it has had no effect on prices as yet, but it
may eventually effect your market.

Indigo will go down at the sale of prices are great,
supplied by the proprietors taking a large quantity
in.

Coffee very dull Tallow is held high but
the transactions are very limited & consequences must
go down we think

Dear Sirs

We are informed by our partner
who was lately with you that he had requested you
to effect sales on our account of Louisiana State Bonds
of the last Loan provided you could do so at the
rate of 110 pcts calculating the dollar at 30 Shillings &
adding the running interest. From what he tells us
however we do not suppose there is much chance of
your being able to act immediately at those limits &
therefore we shall probably now be in time to change
them so as to cover the present high rate of exchange
on your place, which will be done by your substituting
111 1/2 as the selling price, the equivalent of that at
which we are selling here without interest. Yours

Our house not being
forgetful of the subject of your private
letter of the 30th Mch. has been
endeavouring to get some further
information to corroborate our impression
that Mr. Phipps was not legal tender
at the late auction, but our
calculations at the Customs House
that date had been arbitrarily fixed
for the purpose of arriving at the
value of our order on goods entered.

The question is set at rest by the
last arrivals from the United States
bringing the particulars of the new
bill. For this legislation of the customs,
of foreign coins, the value of purchases,
legal tender is fixed according to the
value in value of coins, & the paper
being accepted in all of countries the

We have before us your valued
letter of the 14th. with regard to the cotton you
hold at a high cost it strikes us that whether
can be no chance of your ever covering it you will
consider that you are at liberty to sell at going
rates. Now you are quite at liberty to dispose of
for the best, if your market should be depressed
of course you will not force sales but act on the
idea that prices can hardly go higher under
any probable circumstances,
It was the cotton of Sluzley that Patterson & May

M^r Cobb has written to us about the interference
 of the 30th packet, and his fears that M^r Hornet,
 increasing the rate of freight &c. appears to us that
 any reduction in the packet rate of freight would
 be very improper and ought not to be allowed by

 if there is to be a competition between Packets as

 we sincerely hope that you will be able so

Sir,

We have before us your favor of the 19th and
regret to observe thereby that we are not to expect the
pleasure of seeing you here as we had hoped. -

With regard to the packet ships we have written
fully to our Liverpool House who will consult
with you. I think us as any, in person that
any packet ship engaged to our firm is not
to be allowed to take freight or passengers at
reduced rates we think we owe it to all parties
to keep the rate steady. We had hoped that as
your lines were the first re-established that

Messrs. Green & Co. & the Kennet would
have consented to have their part on the
7th or 23rd of each month which would enable
us to render them service even and without

enterprising at all with the Old Town as a district,
 hope such an arrangement may be effected.

With regard to your other proposition, we will
 write you separately in a day or two. It is probable

Sir,

We had hoped to have had the pleasure to see you before this to discuss with you the advantage of some changes in the day of sailing of your line of packets. That would enable us to remain more powerful support, than without interfering with the first & 16th line; it must be obvious that any competition places us in an unpleasant situation, and which we are desirous of benefiting both our operations are facilitated by the divisions as goods forwarded to be shipped immediately from the 1st to the 7th & from the 16 to 23rd of each month must go in the other line of packets. now a portion of our influence is thereby lost which would

be gained and all competition avoided if you
write for the sailing of your ships on the 23rd or
24th of the month probably you would find an
advantage in fixing your day the 6th & 12th. —

We have written our house full on this matter
and hope it may be so arranged as to avoid
any unpleasant clashing of interests amongst
friends we are equally desirous of doing

(Dear Sirs)

We have to thank you for your private letter of the 10th. And reply to your enquiry as to the latitude which may be allowed for payment, in the event of your effecting sales of Indian goods at our limits, we beg to say that we leave that point to your discretion taking it for granted that the day of payment will in all instances be fixed within one month from the time when the contract is made.

We do not propose doing any thing immediately about the Indian Loan, nor do we imagine that the Commissioners are prepared as yet to negotiate it, as they seem to be collecting information from all quarters before disposing of their loan. The persons who apply to us about it need not be surprised.

of these gentlemen on the subject, will probably give
a discouraging report at the prospect for such loan

extent to which you could rely on the assistance of
the Bank of the United States in such an operation

Your objection to the Canal Bonds may be probably

not go into the hands of any one else.

We are glad to observe that you have made considerable sales of cotton. If you could close our orders it would be well as you will receive \$10000 more of them from Bombay really. As to the French cloth named in your letter of the 10th inst. a good hand and understands that it is, however, the circumstance of his not writing English is of no concern. The one we have is a genuine French one and we don't like his French. but he improves and may in time suit us. Meanwhile we will thank you to send us a specimen of the letter writing of your clerk. and we will then let you know what we will do.

The Indigo sale goes heavily at a decline of 8^{cts} 8^{cts} & 8^{cts}. Cotton is firm. Cheap sells freely at £24.10 for clean. you may as well suppose of ours we see no advantage in holding longer.

Dear Sir,

We learn by a gentleman from Manchester that your cotton market has probably been very brisk on Tuesday & yesterday if so with some advance it may be well to increase your sales as we think you will have a little scarcity of money which if it do not, cause purchasers to become more reticent with present speculation to any extent.

The Indigo sale had gone more heavily to day & allow for late delivery is down very much and will not bring over 11/6.

Gentlemen,

We see no reason to change our view
in regard to Iron it has more of opinion seen its highest
price for many years to come; the rail road in the
United States are now nearly completed, and the
abundant production of British Iron consequent on
the advanced prices of last year is beginning to be felt
and prices are gradually lowering. we have therefore
recommended to our buyers to sell. the last at \$80
or \$82. P.S. I. \$83 1/2 for notes that he can get
asked so as to take advantage of the favorable rate
of exchange to remit home.

Our Lallow market is very quiet. very few forward
sales have been made except for the last four months
a last month of the year. consequently no one is
willing to buy early in year. Market and on should
the Russian holders of the loan with you will

soon find they have committed an error and late in the season. I allow will probably rule low in your market the great difficulty will be that there will be any large quantity of Salers pressing on the market here late in the season which we should cannot fail to produce low prices. You will please to keep in mind ourselves for delivery and if you see that your whole supply is coming forward then you will probably think with us that we cannot bear even the sales here. on the other hand if only a moderate supply is likely to come then you will consider whether it may not be best for you to purchase a part and at what price, our ideas are that we should be satisfied with a small cash profit.

Sugar is steady. Indigo the sale continues heavily. Politics look pretty quiet. It is not likely that Don Carlos can do much mischief. There was money on most places to day.

Sir,

We are favored with your valued private
 letter of the 29th. The declaration of the Dutch
 is no doubt a very unwise proceeding on their
 part and will have the effect to depress prices
 in your market against which it is that here
 to be aimed. We note the depression which has
 taken place in your market which has been
 caused by the surplus arrivals in the early part
 of the year produced by the pressure on the States
 which forced into the European market as
 they could span while the shipments from
 Brazil on loan of being made to the U.S.
 have been made direct to European ports
 and figure in the arrivals here in the early

than last year. but supplies are now falling off
 and we have strong hopes that our total supplies
 will not much exceed what they were last year
 for the whole year. last year the principal ports
 received 65 millions in the first ten, and 116
 in the last three years. 176 millions in the first
 and if we receive only 65 millions in the last,
 the extra 116 millions may be accounted for
 in the diminution of stock in the 11 states.
 Altho' the British declaration is an unfortunate
 circumstance, we should say the present is
 the period of the greatest depression. the moment
 when every one should hold fast. Our friends,
 are all for holding out, and we are not at liberty
 to sell if we felt disposed to do so.

Cottons very firm and shewers no signs
 much to let every extraordinary speculation
 at Liverpool Sugar is firm. Indigo depressed

between the Gold & Silver coins of

is there less current from this time at
\$4.87 1/2, than at the expiration of 30 days

bills without any charge, and any other
foreign coin, coin of that specified in
the act, may be tendered there at as

Dear Sir,

I have received your favor of the 28th June in reply I have to inform you that we are in no way prevented by our relation with Antwerp from entering into relations with Mess^{rs} Protestation but we should be out of order for not knowing that they are dealing without neighbors to make any advances. we should have no hesitation however in granting a credit of £1000 to be used in their regular business should they request us to do so, this sum of credit should be opened on their side and renewed from this side as we only see that we are to look for our remuneration.

Then the practice of other Continental Honors
 in active business to request us to renew the
 credits when they think it likely the previous
 one will have been exhausted. of the House our
 dealing only with us. of course a larger credit
 would be necessary. The House stands well
 and so far as we are informed they manage
 their business well. but is contrary to our
 practice to make continues for business when
 we know the parties are in relations

 go on increasing. The point on which you
 are most exposed in negotiations on foreign
 credits, for the past few years have had

has followed a general depression and

 by the strength of parties move and some
 of the foreign houses will find themselves
 to diminish the am^t of their foreign

Mess^{rs} Goodhue & Co

Dear Sirs.

In the hope that some arrangement might be made by which the interference of the Kennet ships might be prevented the writer visited Liverpool last week. you may be assured that if it would serve your interests for us to resign the consignments of the Kennet ships we should do so without scruple but we think it good policy to abstain from such a step while there is any chance of the opposition being amicably removed. for altho' we might reap the business some one else would take it up and the opposition would remain. it is only inconvenient and embarrassing in consequence of the lower rates of freight and passage money. could the Kennet be induced to raise his rates no one would have reason to complain. this we are inclined to think

he will not do until the proprietors of the several
 lines assign him a day averaging for 5 lines per
 month. As you consider no doubt that the 1st & 16th
 are decidedly the best days, the question strikes us
 to be whether you can reduce the rate of freight
 on your 1st of the month ship so as to meet
 the opposition or whether for the general interests of
 all packets it may be better to assign Mr. Kermis
 at proper distance for the other days of sailing
 one day for him. we put aside the question as
 to whom the ships are consigned, for this only
 clear the opposition of Mr. Kermis is equally pro-
 fiteable in one hand as another since by reducing
 his rates he makes it for the interests of shippers
 to point out his ships particularly to their shipping
 agents. The position of our House in regard to the
 business is very unpleasant, and we do not intend
 to endure it, if the matter cannot be arranged
 amicably in your view we shall certainly give
 up the agency of Mr. K. two ships for which
 we took them they were hardly considered
 as regular Packet ships they were treated

as transient ships that always sail at a lower
rate of freight than myd Mr Kermans to take the
6th of the month at the 23rd. but he replied why
should I do so. I am threatened with opposition
from Messrs Brown's if I do and whatever way I
move I meet the same opposition therefore I should
gain nothing by a change and lose what little
notion my ships have already acquired overboard
work before we do any thing to hear from you
and beg you will express to us fully your wishes
on the subject. Capt Jubb will explain to you
the whole of the bearings of the case -

The late law of Congress regulating the proportion
between silver and gold is likely we think to
produce a scarcity of money here. the value of
the sovereign being fixed by this law at \$4.87 1/2
affords a good margin for exchanging of silver in
the banks of your Banks for gold. and should
the exportation of gold from hence be carried to
the extent of 2 or 3 millions it might have a
serious effect on our money market. Cotton
is brisk and may go higher. Coffee has probably
been the lowest.

Dear Sirs,

In reply to your valuable favour
 of the 2^d but we regret to inform you that
 our engines in regard to Messrs. A. B. Baring & Co.
 assumed in answer to lead to the belief that
 they are swindlers, and we understand that
 A. B. Baring & Co. are highly respectable but not likely
 to ship cottons. but we are told there is no
 such firm as A. B. Baring & Co. altho' we gave
 that firm to Robert & Co. and received from
 them the favorable opinion returned in the extract
 sent you. we cannot account for the discrepancy
 in the name to A. B. Baring & Co. in our letter to you
 of the 6th May we shall write to Robert & Co.
 this evening to enquire into it, but we fear
 it will turn out as swindling to our actions

We make it a rule not to open an account
 enter into transactions with any House abroad
 unless they are introduced to us by some one
 of our correspondents. it seems particularly
 necessary at this time to observe this rule
 as there are a great number of swindling
 concerns in full operation just now —

There is some uncertainty in regard to foreign political
 tax. we do not see that the price of Cotton
 can be much influenced. we therefore suppose
 you will do right to continue our sales at
 going prices.

The packet ships have done well all things
 considered. we have written to Messrs. Smith
 a long letter on the subject. What would be
 the worst day if they were to put the rates
 of freight & passage money for the 1st of the
 month ship down to half rates.

Brookhead & Co. state you are not in possession of any written evidence that Mr Stanton Carter represents them, we suppose however there can be no doubt of the fact, the advance of 55p. on the Coffee of Henry Thompson is much more than it is worth at present. Brookhead & Co. must be small after any losses they may sustain on Coffee but you are quite right to keep square with all the Partners and only keep their account on case you can hear it on your own terms.

John Hagan we note his second letter on your reply that is in order.

Thospd & Co. you seem not to be aware of the great change effected in the value of all American Stocks the interest and dividends on which are payable in the United States, the depreciation of your currency being so different that the stocks are not only worth that much on the principal left but the whole amount of dividends receivable, until the reimbursement are depreciated & to the same extent this a five per cent stock reimbursed

some £ a year which should be paid. —

Coffee, it is true that our ideas about Coffee at the
close of last year have been more favorable than
your merchants generally. we think however
that we should not have been far wrong if
things had been permitted to go on peacefully in
the United States. the present state of things there
will account for the excess of our imports in
the early part of this year. we feel quite confident
that our total supplies will not exceed by more
than 20 or 30 millions what they were in 1833
and you will have this quantity less but
the demonstration of this will come very late
in the season all our Coffee friends have been
for holding until August & September.

we are watching the article and are prepared
to let it go in case of need.

Indigo from Calcutta is being 25 @ 25 1/2 this
year.

Cotton is very firm and likely to continue
so. if we could get any opinion that could
be relied on, as to what you expect the United
States something might be done to advantage
at Bombay should you crop only from Bombay
bales.

Sugar are firm.

Crops on wheat has been injured in a slight
degree by some wet weather, but unless we
have a continuance of the same weather the
injury will not be felt.

Export of Gold it has been thought for some
supposed that large quantities of Gold might
go to the U.S. but the returns only state
\$4000000, and as your exchange by the 8th
packet comes nearly 4% we conclude

the shipment cannot have much effect on the
money market.

It strikes us that the Bank will make some
sauce with the ships as your opposition are
termed, and that you may yet have some
score work before the elections in November

We still hope to see you on this side by

Dear Sir,

In reply to your valued
private letter of the 6th inst. where
to inform you that the Louisiana
Mining Bank is the one further left
of which the State has agreed to
furnish the last loan authorized
by an Act of the 17th Decr. 1833. By
the Charter the subscribers to the
stock a share of the Bank give
a mortgage to the State of real

Bank are set apart for a fund to
redeem the bonds which the

It is one of the first Bonds as

Dear Sirs,

On reflecting more on the
 transaction with L^d Ballew & Co it strikes us
 that a case of conspiracy may be made out
 in which A Bonnemant & Co may be made parties
 but we cannot judge of this until we know
 all the particulars. who arranged for the paper
 or advance? was it A B & Co if so and one
 of you can identify the parties they should be
 taken up without delay. we suppose there
 are neither merchants or ships of the name
 given in it so

The Am^t of Gold shipped from hence thus far
 is only 34,000 oz of which we shipped 14,000
 The letters received by Packet to day speak
 of the Cotton shipments as nearly over

Dear

In reply to your favor of the 18th inst. we have to regret equally with yourself the unfavorable state of the coffee market. but we should choose not better to say. With regard to the advance you are under on the crops of the West Indies do forget to give consideration to your self. though as far as possible as may suit you at this season. that may be found most advantageous to our mutual friends. My dear Sir,

I received in due course your letter of the 10th inst and regret very much that my House had given a destination to the Brighton before receiving all family letters desiring us to engage it to you otherwise we should have had some pleasure in conveying the report to your House, we acted on the business letter which made no mention of any particular House. We agreed we should never think of diverting a conveyance which we knew was intended for you in any other House. As you justly observe there is no reciprocity between our respective forms but we make that right by repaying the usual return of compensation which we have made the advance in any conveyance

Dear Sir / We have your valued favor of the 7th
 met and have delayed answering it in the hope
 that we might receive some late information from
 coffee growing countries but we have only dates from
 Brazil where the new crop is represented as of very
 superior quality and from the sample sent us
 we should say there must be a deficiency in quantity.
 The article is certainly in the most gloomy state
 at present, and we think without sufficient cause
 for our supplies for the remainder of the year must
 prove short so as to give a total of import this year
 falling that of last by about the quantity which has
 been found from America by the purchase of 15 or 20 millions
 more that would not be sufficient to produce any
 great decline of the article as we well know and but
 the Dutch Company has done much mischief
 and altho' the fall in regard to coffee may improve

as we approach towards the end of the year a great
 despair of any improvement in the nominal prices
 of the day, but prices are getting down to a few pence
 rate at Hambro' and it should not surprise us if speculations
 were to take place. We hold on for the present as none
 of our friends think the article will come round
 and where we have not any solid correspondents
 we feel that we are interested in the result and
 that we shall probably do as well by remaining
 quiet until the disagreement to importation
 shall have passed stocks a little.

Sugar continues to look well. We went to
 Canton by the Duncan to sail next week
 and shall give your agent all the information
 we have which amounts to very little.
 The Superior Black Tea got here from Hambro

 Our agent Mr. Ward has come here for a short time and
 we of course are enabled to converse with him on the
 state of affairs in the United States his ideas are
 that there will be great improvement there in trade this
 autumn when we hope the season will go off. We ask you
 remarks on Cotton which appear very judicious. The Americans
 will we think make a big business of it for our home supply
 of Cotton is very great and increasing and we should think the
 Americans can do without 40,000 bales of Cotton for 12
 months if they think fit and so higher. You will observe
 we have wharfed in about 1000 bales of cotton since our
 last mail, without there can be no mistake in this
 Our market is in a very languid state and since the
 receipt of your dates to 27th ult. of any thing, by sales
 than before. High prices cannot rule in the year.

Gentlemen,

We hope the *Algonquin* having now
 have reached your port in safety and that you will
 have despatch her before the middle of October at
 at farthest. Good Sea will probably give a fair profit
 and the earlier it arrives the better, in regard to goods
 for your market altho' prices have declined they are not
 lower for long bills than our cost and as soon as we
 are again in the rise they are not likely to be lower.
 That your Spanish ships are also looking up again
 several of the large ships having been purchased and
 much attention directed to the Sea trade it is likely
 to be our case after the present year. It is our
 intention however to keep one or two ships in the
 trade and to the other we shall be able to do so.

I am sure that he has ^{not} done from that you may be assured

 Mr. H. ^{has} been very much with the parties concerned and
 the same independent of them, and in a private capacity
 I am with the spirit of the thing, and in the last year
 and was the person who ^{has} been to attend to the matter
 in the satisfaction of such an absolute and independent way
 to be given by a confidential communication with
 Mr. H. having from him first of his real intentions
 to transfer his business from us to Mr. H. and we are
 the more which may have influenced him to do so
 the more it is not to be considered as any thing relating
 to the business of our company, but to others and not
 to ourselves, and that the same is the case, following
 which Mr. H. has been instructed to be as usual, and
 from the matter he has to settle a perfect fall stage
 seems what he has taken up to be as usual
 Mr. H. has just given us some respect to our business
 and that is the only standing in the name
 of Mr. H. but in the future we shall be
 as usual to do with pleasure in a conference

in this view of the power of the Government
that an account be rendered to the public in due
time, and that the Government should be held
accountable for the manner in which it has
employed the money of the people, and that
it should be made manifest to the public that
the money has been well and honestly
employed.

It will be seen in the account
now accompanying the report of the

Government has been very successful in
its operations, and that it has been able

Dear Sir,
 The various documents which you required
 will be ready by Saturday, and I shall be sent in over-
 parcel - when we shall write you again. The object
 of the present is to assure you that Cropper & Co
 have no objection to their agents attending to the
 collection of the duties on the importation of their goods
 would induce us to go on in the same way, and
 put ourselves to great expense, without an adequate
 remuneration. We are of opinion on this point
 - that the Government should be responsible for their
 expenses, and we are of opinion that we are always
 covered at the materiality of our engagements.
 The new given you of the prospect for Cotton, altho
 the figures are about right, are too far from
 the present state of our country, and for you
 will observe that a considerable surplus and
 will be maintained probably last long, it
 has considerable effect on the Cotton market,

as you will have discover'd at Liverpool
and as it is probable the dullness will continue
there will probably be a good time to be consulting
if it shall have any effect on the opening price
in the United States.

You will communicate fully with our partners
at Liverpool so as fully to inform them how the business
there is carried on and our feelings independently
its merits, and so, necessary.

Robert & Sons have just in stock a quantity of

Dear Sir

We have to thank you very particularly
for your friendly attention in making us the communicate
contained in your letter of the 29th July which reached
us only this morning - we regret extremely to hear of
the difficulties in which your neighbours find themselves.
we were aware of their being deeply interested in Coffee.
but were in hopes that they would have been able to maintain

Their ground tin business took a more favorable turn & prices in some degree recovered - during the time we have been in connection with them they have always managed their business fairly & honestly & to our entire satisfaction & their misfortune seems brought about more by the peculiar circumstances of the times than by any fault of their own - we shall no doubt be losers by them - we have not yet had time to look particularly into the state of the account, but our claim against them arising from advances on coffee the extent of our loss will depend upon the course which this article may take - in the mean time we shall take no steps which may make public the

difficulties they are in, for the chance (tho' we fear it
is a small one) of their being able to avoid an open
suspension of payments - Thanking you again for
your kindness in informing us of our danger we
remain very sincerely, Dear Sir

As our last letter to you, monthly
statements the growing distress in Europe, which the
heavy imports for several months past, you will not
behold to increase. Your own imports to the West
are expected to have no effect here at all. The
European imports can be satisfactorily accounted for
by the prices in the market which force people to
stop off all that they had to ruin many and many
to import the crop, but almost none to Europe, thus
forming in our imports at least 100,000 tons less than last
year. The exports and imports are now becoming
the same, monthly of the year as at the close of
October in Europe are more than of last year by
about the quantity sent from the American market
by the Americans. The total loss has been announced
in a manner calculated to destroy an impression

London. 6 Sept 1834

There has been some stir in Plantation Coffee and prices have advanced 8 to 10/ of last week to the buyers not seeing so large an amount and the prospects for the next being bad. Lyeon and Morda Coffee have advanced in consequence the Banks' advice about foreign coffee are more favorable and when the dated Company's sale is over we shall hope for some improvement as our supplies are otherwise moderate until the end of the year but we recommend our friends who hold coffee on your side to rely on the American market and sell there, and gentlemen hold all old stocks & Mr. Parker on what you have advanced prices and remit us the money or don't look for any improvement that will make the coffee worth more than 10/.

Within the demand is slightly improved but in few prices are open to high enough demand. Cotton & Mayswood are abundant ^{there is no demand} ~~there is no demand~~ prices may rule. It seems pretty clear that we shall not have prices lower until the

and crop beyond to arrive in abundance, they said
 they have three lots of their crops of cotton, so that
 if so they may not be kept & advanced. Your crop
 seems to have been fully three lots, and with the
 effect of a good season it may reach 1800 lbs or 1900 lbs, and
 the profits should be considered, and it is better not
 to have engagements than to advance too much
 & meet parties, from present appearances the
 price cannot hinder you and the plan of advan-
 ce within a cent or a cent & a half of these prices
 may be safe, we give no specific direction about
 advance, you will consider yourself as having all
 the matter under you and give such direction
 as you may deem safe to Mr. Smith or even as
 to all others

Legat continues my form except at Petersburg
 then 25¢ it was the last price, and have given
 me a calculation of the quantity of 25¢ and find
 they cannot in any event lose more than their cost
 on the purchase of the army cargoes they have
 shipped to Petersburg while on your orders they
 gain. The state of things in the British Colonies

is watched with intense interest the general expectation seems to be a diminution in the production of these colonies, of the sugar will go higher and Coffee will certainly be attended to

India has advanced.

Pepa quiet.

Indigo rather lower.

The at the Company's sale is good, considerably higher than at the last and good Tea will be likely to maintain itself. we should say I might be acquainted as to sending some of the good Teas in the Vessels to Bombay or Mauritius, to be returned to this country in case your prices do not go up

Tobacco is advancing and the export demand is good

Messrs "Baring Brothers & Co"
Liverpool

Dear Sirs,

We have your favor of the 2nd & 4th ult^o but with the balance sheet for August and your cotton statement. There seems no fear of cotton for the present, but the coming crop in the United States will probably exceed the last by 100,000 bales, it will reach 1,300,000 bales, Egypt will produce 200,000 quintals, and India will probably send forth an increased quantity, so that our ideas are that it is on the whole wise to realize when you can obtain full prices the sale of that was a good one. We have authorized Mr Ward to engage

Henry Osborn during his stay at Newbliss
to get for us and as his agency will be
solely for your benefit we think the simplest.
Hence should bear the expense of it whatever
it may be. We fear cotton will open too high
and that we shall be able to do but little
with safety the coming year -

Thurmay as well let the Olive Oil go at
the market price when you can find
good buyers. also the Palm Oil.

Pray inform us how much about the
road has occurred. and can you throw in

We fear we can make nothing of the
consequence; it was a clever devil who
got that up. Ruben and his have made you
lose by not noticing the difference of value
when we enquired

Will you enquire if any of the ships bound from

Market; 13 Sept 1834

There has been more doing in Coffee during the past week and the advance from Manila shows an advance of 1/2th the arrivals are limited and we think will continue so for the remainder of the year. It is better however that you keep all you hold for us and sell it, in the United States.

Cotton is in rather more demand at London but prices are only supported, and we now have abandoned the expectation of an advance this year.

Sugar very ^{firm} except, while Havana is.

Coffee seems very steady

Tobacco is in good demand for export and at high prices which will be supported if you escape the coming season are not larger than those of the last.

Rice is very dull and as crops are good and wheat prices very low we do not see that any

thing great can come out it next year
 Clover seed may pay at a low cost

Flax seed is quoted \$10.50 per bush in the rough and

 has always appeared to be high otherwise at
 this cost the seed would stand nearly low enough

 statements you enclosed in your letter, & not
 doubting from the quarter from which we received
 them, that they may be implicitly relied upon, they
 have tended very much to remove the apprehensions

we entertained of the extent of the injury the
 Association was likely to suffer, from the
 unwarrentable circumstances to which we have
 alluded. We will not however disguise from you
 that notwithstanding the improvement which evidently
 had taken place within the two months preceding
 the date of your letter, yet that it appears to us
 there is much still that requires all your watchfulness,
 for tho' you appeal to the evidence of the sums due
 to the other Banks, as an indication of returning credit,
 yet we are unable to reconcile that fact with the
 stationary amount of notes issued (Billets de Banque)
 & the reduced amount of Individual Deposits.
 The course of proceeding for the future which the
 Board of Directors are determined to adhere to,
 cannot but place in order that part of their affairs
 which requires adjustment, & feeling much interested
 in all which concern the prosperity of your
 Association we shall be very gladful for any

information with which from time to time you
may be good enough to favor us.

We trust that the experience of the past twelve
months may prevent any repetition of such
measures by the Government as have caused
so much loss & inconvenience throughout the
Union, & we shall not then fear any interruption
of the improved condition of every one connected
with your State, whose two great articles of
production, Sugar & Cotton, seem likely to
continue (particularly the former) to be met
with remunerating prices by the Consumer.

Dear Sir,

We have yours of the 13th and note its contents passing what is agreed to on our side bottom about which we have seen considerable from your place that make it out, that your stock of American bottom will be raised to 57000 bales at the close of the year. we see a great error in that statement, and believe that you are more near the truth in supposing that the stock in the Kingdom will be 20000 bales, & should any considerable advance take place so as to check consumption: the stock may be larger, the advice from Bombay are important, but we suppose we may yet receive from that port about 20000 bales in all. but it is quite probable that the endowment in the General falling in regard to the article may cause a movement in your market before long as it is known that the

The affairs of Cotton was taken with a view to cover
the charges but the loss in weight was taken on
an account of many parcels from various parts

next year with a view to the use of the latter
at the same time it would be preferable to buy
on sight. Our customers will not look themselves
at high prices and we have very little doubt that a
sufficient quantity will come all the same. It will
take us the year when commencing a large stock
and be further incited to buy only from hand
to mouth and thus tie the holders.

Our market is quite inactive in Europe. Sugar is held
firmly and all kinds except white Havana are losing
up. Coffee is more in favor.

In the stock exchange the chief attention is given to
Spanish & Portuguese particularly the former and the
fluctuations are very great.

Miss Mary Anne
Dear Sir,

London. 17 Sept 1834

We have arranged our statement for the
1834 and enclosed that of 1833. in making it up a week
ago we were under the impression that no 700,000 had
been cleared from the United States. that quantity should cover
two of third crop but those shipments from the US include
wholen of new and crop shipped after the 1st of Oct. that arrived
here from 1st Aug. and were included in last years statement
therefore we correct our statement to the expectation that
only half of the 1834 crop is now to come forward and
as prices are likely to open high we suppose 700,000 to be
a fair estimate of what we shall receive. in which case
our consumption is stopped by higher prices, our stock
will be reduced to 100,000 bales at the close you will
observe our manner of taking the consumption, which
shows an increase on last year, this may be more
a slip effected by the accuracy of the estimate for the stock
outstanding on the 1st inst. but we think we are not far
wrong when the last account from Bombay on arrival
and onwards show that an advance is very probable
and as before advised we would have you wait a
little for such advance and take advantage of it.

to close our consignments gradually. The amounts of the new crops will serve to check speculation.

Our estimate for negroes would stand as follows

Stock 1st Lang 162,200

Imports in 1835 1120,000

Exports 2,284,300

Consumption of the people 65,000

Stock at close 283,500

We assume that we may have an increase in the 'Plantations' 130,000

Egypt 50,000

Athens 50,000

Spain 50,000

South America 20,000

Total human 130,000

of which Great Britain can get 120,000

this may be rather a low estimate

but whenever we are to receive the required 300 millions
required to complete the supply further year on year
at a loss to receive about 17000 £ less say 30 millions
are expected from the Antislave Islands from Cuba
40 millions at the outside, and as very little is received
in Brazil, we think of an estimate supplies for
manure and other things at 50 millions say
together 120 millions, and putting fastening which

come to an aggregate of about 170 millions; to
make the whole imputation, whether we wish

altho' the prospects for the Brazil crop, are a

good prices will rule during 1835. - Should the
American crop prove short, it will have an additional
effect on our stock and supplies - if contracts
and demands in Cuba at fair prices for the
average crop it will be desirable to secure them.

Tobacco is very firm and looking
depressed. our market for Carolina is quite bare
 and we are to get no supplies from Europe this year
 and should estimate American seed as worth 55¢/lb.
 for seed for America or observe the New York quotation
 for rough seed at 45¢/lb. would make it better
 at 50¢. the freight might not be over 5¢/lb. for
 that the New York prices are very nearly low except
 speculation. pray keep your eye on it and if by
 trying to sell at Liverpool we can purchase the
 usual imports at 40¢ so as to get low quotations
 we may be able to do something to advance
 and have the accounts about the last of June
 by mail.

Dear Sir,

We are glad to see your letter market, as
 well but we think you should embrace the moment
 to sell, as the numerous unimportant factories which
 are taking place and the higher value of money, with the
 reports of the numerous growing crops in the United States
 will suspend business in your market, for a time should
 your prices go higher and at unusually high rates you
 will suddenly find no demand, therefore if you see
 no very strong reason for holding, pray sell out as
 quick as you can, you will have sales to the ^{value} of ~~the~~

My Dear Sir,

Amsterdam

Dear Sir,

By the New York packet of 8 Sept we learn that the loan for
the territory of Florida in 18 per cent bonds averaging over 26 years
before commencement - principle and interest payable in New
York - one million dollars capital has been taken in this way
\$500,000 at $\frac{1}{2}$ p^{ct} premium, say 100 p^{ct} with the option to
be declared in New York within 10 months to take the remaining
\$500,000 at 101 $\frac{1}{2}$ p^{ct}. The contracting parties are Prime Ward
& King, Bechtel & Co. Joseph & Co. ^{and each with consultant} and Buss & Co. all American
houses but the three latter are connected with and out for houses
here - Joseph & Co. for Litchfield. Although there is an objection
to a loan for a territory before it becomes a state yet this price
is low, but we are interested in it for we had given no
authority to treat for it and in general the great competition

and a reduction of prices as well as the high prices now in
force in several of the borders will keep us quiet. There is a
mule loan talked of for Kentucky in which we shall likewise do
nothing. The town of Boston has not decided yet upon its mode of
borrowing but it will probably expect very favorable terms.

The accounts from the United States are in general good - money abun-
dant, exchange and stocks rising, the crops promising well and
internal trade assuming activity notwithstanding the cholera
has caused a stoppage of the last statement of the U.S. Banks which may
interest you. We have the most favorable accounts likewise of the
Union Bank of Louisiana in the statement of their affairs at the
end of July last presenting a surplus beyond their original capital
of \$672,670.00. The importations of specie from Mexico from
Jan^y 1st to 16 Augst amounted to nearly four millions dollars
which had been invested in British exchange at an average of
about 2 p^{er} cent. In Baltimore John Cornwell & Sons have stopped
but show a handsome amount of assets to meet their debts.
We hear nothing interesting from Mexico.

Dear Sir,

Paying you ⁱⁿ advance of the £1500

 to your favor of the 20th ult^o relating to St. Pauls request
 which you are desirous as we do not see that without in
 fact have the security more hands and we think we
 can find a much better employment for ^{the} capital in
 our mission business that presents more security and
 a more rapid return. Withers has credit from us now
 under the guarantee of St. Pauls of Boston for £10000
 and we observe he draws on Mr. Weyman who he may
 be doing well, but is inclined to do too much.

We have not much news here. It seems the agents
 of some of your Lancashire Joint Stock Banks have
 declined to discount for them to the extent they
 have hitherto done and the Bank of England
 it is said has put a limit on their satisfaction
 in consequence these Banks will issue their
 notes in place of using the notes of the Bank
 of England. As my letter of the 24th ult^o a copy

of these Joint Stock Banks, have been paid up and
 the subscribers are not supposed generally to possess large
 property. It strikes us, that you should bring caution
 into the bill, with the other Bank endowments the
 natural effect of such endowments is to give an
 idea of security, that prevents the investigation
 of the standing of directors and managers, while the
 real security of the Bank is very small: we believe
 there is a Bank at Liverpool & one at Manchester
 quite respectable.

London 6th Nov. 1834.

My dear Sir,

I have of the 1st Nov. duly taken
 down in the Register what have the particular
 then on your case contained in 1834-35. 2882.
 1800 and 1800 being the same price. But
 had it been in 1834-35, the price would have been 2882.
 taking the value at 1834 the calculation will
 be as follows for the 1834-35

1834-35
 1800 2882
 1800 2882
 1800 2882

Therefore you can see at 1834-35 the price of the
 1800 being 2882. I will therefore be more than the largest
 amount to the same thing & as to the largest
 but the amount is 2882. 1800 being 2882.
 1800 2882 1800 2882 1800 2882

The two first the 1834-35 and the 1835-36
 is no doubt but the 1834-35 are made
 the supposition that the two first
 & add them in making down the

Dear Sirs.

We have your private lines
of the 4.51.8th inst. The balance is all right, and the
Commission account very satisfactory, we fear you
must look for a less brilliant one next year as
Cotton is in a very awkward state, and we dare
not take hold of it at present prices.

May we, this scarcity of Cruching seed makes, the buying
seed worth about 60s. for that purpose all you can
do is to try to get an offer. the new seed will probably
stand in 85s. being quoted at last date, 82 1/2 rough
at 90s we should say you might sell but probably you
will not find buyers at that.

I must not we have enquired of Brown & Danson if you
since they have had but one transaction with him
which they state seems to have been regular enough
they believe him to be a ^{respectable} regular ship owner and that
the business gives but little trouble if you can secure it
on terms that will require no unusual advance
we should like the account at any rate more

willing to undertake the sale of the two cargoes
you name when perhaps we can see more into
the nature of the account.

Pray get the Mains discharged and delivered to the
Owner as soon as possible we will send you the
amount we have already paid on account of freight
which with the bill sent you we will put in all that
will be due.

It seems that Goodhall & Co. & Kemmet are not
any likely to come to any arrangement and
to avoid any further interference, after this
packet it may probably be best to notify
Mr K that unless he puts his rates the same
as the packets we cannot receive his ships
any longer; say to Capt Cobb that we have
luckily had an opportunity to offer to the
Post Office Committee that his ships the
1st & 16 would take sealed letter bags from
the Post Office in London & Liverpool on
condition that it should be inserted in

The daily Post Office lists with the names of
the ships. the Committee seemed to think it
would be a very good plan and might secure
them much revenue from the postage of letters

Dear Sirs.

We omitted to thank you in
due time for your valuable private lines of
the 11th inst. We shall certainly have a balance
to claim from Joseph & company but the account
of it we cannot ascertain until the wool is sold
or before there is but one of the wool concernly
which we can suffer and in that for only a small
amount. We thank you for the suggestion as
to the changing the mode of conducting this trade
when advances are required. much that a report of
it to this year it has gone on very smoothly and
the transacting of parties on your side with little
trouble only a small part shows appears of their
operations we were kept in ignorance of the extent
of their life by the neglect in former years.
We are glad you have received the credit on

on Bonnets properly. Coffee is beginning to
attract attention here. and we have felt confident
that prices will improve with spring. we have
concluded not to add to our present current the
statement of imports and exports any longer as
we fear it tends to produce speculation when a
weak fallow at the present moment the stock is
very low but we among the assistants as they
would stand if printed at home for you
will observe that the stock of coffee Nov 22 was 26
imported in Nov 22 was 40
imported to Nov 24 26
stock on hand Nov 24 109
apparent surplus 135

that gives the average of the past three years by about
18 Million, this sort of calculation of course cannot
be depended on as any exact but serves to check any
extraneous opinions one way or the other - when
we considered that we have received into Barracks
nearly a crop and a half from Java and a very large
crop from Sumatra and that the coming year we shall
receive only the bare crops and that from all accounts

The Market on paper is short by 10 millions. The British
 islands 10 millions. It says of India 10 millions and
 other places so far as we have been advised only the
 same at last year. These all being considered as the
 due but not estimable to ourselves there seems no danger
 in holding at present prices. The market at the close
 of the year will probably exceed what they were last
 year in Europe by about the diminution in value of
 the United States. Sugar is certainly advancing
 here and as high as 25¢ was paid to day for yellow
 Havana which we hope may influence your market
 it seems you will get nothing cheap from Cuba only in
 the season. Cotton keeps up and unless the Am
 crop exceeds what was estimated at 2000 bales there
 will be none too much. Our change of currency
 seems to make very little noise. nor is any important
 change in the policy of this country expected.

We shall have a long talk with Mr George Parish
 during his stay here and endeavor to grasp some
 business, but prices here go so high that we have
 not much to say.

Messrs Sturges & Co.

Dear Sirs

We have received in course your
valued private line of the 5th. 9th & 12th ulto and take
due note of their valued contents. Planning what
requires no particular reply, which may have been
answered by our subsequent general letters we have
merely to remark that, as the price of Cotton has
depended mainly on the power and disposition of
the Shippers to hold it has been difficult to force other
parties to take place and the winds until a few days
past have been so unfavorable that we purchased
enough to complete our contracts all to the 1000 lbs
late purchase at 40s. The purchase of 2000 cwt of cotton
has been advanced before it had been done by Messrs Sturges
did not extend the contract until to day and. that
it did not come before our corresponding clerk advised
The arrival of a few ships to day has made the
market very dull and we have no doubt of a
momentary depression when we shall replace the
1000 and then close the 1st of Decr under all
circumstances perhaps has been as well managed as

prudence would admit, and certainly in the best manner
possible on your side—

The speculation in Spanish is not entirely caused on by
by any distinct clue, we fear. That there is a gambling
spirit abroad, and that eventually innocent persons will be
drawn into it. There has been made up a list to be sold
for the Spanish loan it consists of, some taken, circulation
of, Rochester's for life. So Campbell the Lord's for
the Pan's Bankers &c. it is supposed Mr. — is concerned
altho' his name does not appear. We have declined
from the beginning to have any thing to do with a loan
that should be an imposition on the public, but we
have very little doubt that it will find ready sale, and
at prices that will give great profit to those who
mean to buy that their stock operations, weaken our
confidence in people out of the stock exchange, &c.
in a few instances of no general importance—

We are sorry for the failure you announce, in which we
are not interested, but we are interested in the failure of
a German firm you advance, and it is to us of great
extent. With regard to Messrs. Rogers we believe we
informed Mr. Klein that some time ago ^{last year} we held some
a considerable sum of their acceptance, remitted by Mr.
Liddardale, and Messrs. Rogers are desirous to have the same
they supposed them ready to take up under discount,
very soon or might, again they are clever actors

and are on the right side this year in Nations having commenced
 at 100. and down to 100. had sold 10000 in that so that
 it appears they stand better than ever

Upon that they seem to be doing a fair business, and altho
 at present nothing more is announced to them better
 than formerly, but we will enquire more particularly
 if you is decidedly on the rise and should advance
 you might as you will not be able to replace
 and to the advantage of the bottom continues firm

Messrs L. S. & Co.

Odessa.
Gentlemen,

We take due note of your remarks about
Tallow contained in your valued letter of the 14th inst. and in
reply have to state that the stock of this article is accumulating
and they were computed that we may have 5000 @ 55s cwt
on hand on the 1st January while the consumption since
long time has never exceeded 4000 a considerable stock will
therefore remain over on the arrival of the new Tallow in
Jan. when the supplies are likely to be as large as this season.
We therefore see no reason to expect higher prices altho the
Russians who are the chief holders here are clamouring very
much to keep prices up. The Tallow from your port
arrives at an unfavorable season for sales and under
all circumstances we think it will be unsafe to go
above 8 1/2 W. say Eight & a half on Lint account and should
your prices fall so low we would not have you go beyond
Five thousand Casks which may be divided as follows
2000 to London 1000 to Liverpool and the residue to
call at Cork for orders and once there is
an advantage in having duties to discharge either
at Plymouth London Newcastle, Bristol, Dublin or

look.. Were it not for the uncertainty in regard to your
being able to purchase at the ^{above} rate we might sell
Yellow Candle Tallow at 40s. for all next year and
then secure a profit, should the operations of the Russian
here cause an advance to 41s. we shall not hesitate
to sell in that way.

Flax has greatly advanced and low qualities, of
Hemp, have washed a price out of proportion to their
cost compared with clean perhaps you may be
able to send us some of the latter at a low cost,
Hides will we hope do well but we fear those
shipped by Russian vessels, will be quite spoiled
before they reach us and we beg to impress on
you the importance of you avoiding this flax in fact
many sorts of shipments.

We propose sending some of our joint wheat
to the Italian markets by ships that we shall
charter for the return voyage from Odessa as the
wheat will be taken in that way at 2s 6d per bush
with liberty to call at Marseilles and thence to the islands.

would allow of an opportune supply from

| Stock in London 24 | 149 |
| apparent consumption | <u>256</u> but assumed 252 |

It would show the regular increase. As in this calculation we add a table of the shipment from England to the various large markets on the Continent, this works the area of capacity by one mode of taking them and increases the apparent consumption. In our opinion, then, sufficient to make up for the direct imports to Liverpool, Amsterdam, London & Rangoon which are not entered in our statement. The consumption of the United States is casually stated but is probably about 30 millions, which would give the annual consumption of 290 millions. The production may be stated as follows.

| | | | |
|---------|-----|-------------|----------------|
| Java. | 50 | hot up. | 265 |
| Sumatra | 10 | French Ind. | 7 |
| Ceylon | 5 | Malacca | 10 |

| Java | 10 | | in many years. |
| Sumatra | 10 | | |
| Batavia | 20 | | |
| Arabia | 10 | | |
| | 285 | | |

thus diminishes that while the probable consumption
is 290. the production with fair crops is but 282. millions
and that we may have to deduct from the surplus of this
year (a surplus) for that crop in the British Islands 10.

Barile — to

thus reducing the supply to 262. the state of the market has
been such as to discourage early importations, and of
course there has been a rebellion which will probably
prevent any large supply of that kind. at Batavia
at last date, there was no coffee remaining, so that
in India nothing can look more favorable. America
will no longer export to Europe on the contrary she
will require large supplies for her consumption, and
many markets being easy these large stocks will be
held there. The worst feature in coffee is that a
large quantity is in few hands, and speculators cannot
get hold of it unless at advanced rates which keeps the
flat, or inaction

Dear Sir,

We are greatly obliged for the offer you
 are taking us to make us in your valued favor of
 the 8th. or 10th. we readily accept not from our
 knowledge of the prospects of profit but from our
 entire confidence that you would not have undertaken
 the business unless with a fair prospect of gain
 without pretending to be able to pay any amount
 of the matter instantly as this calls for two millions
 at so remote a period as that mentioned is a great
 advantage for the Government. We have but two
 months time beyond the amount about the contract
 for the amount loan which we fear will prove very
 heavy business for the Contractor as to matters of
 interest and are thereby called into the market
 and unless the contractors are prepared to buy they
 cannot expect to dispose of them loan as a profit
 particularly at the public even rather than

the report... Mr. Rothchild says he has no interest
 in the loan. The parties are James Cohen & Ricardo of
 the stock. John Jay & James Campbell. You will
 know that the Paris Bourse is in a state of
 confusion. It is supposed that Cohen & Ricardo represent the
 Rothschilds which he denies. If he is correct,
 the contractors will have the stock, and has
 immense tons of Spanish stock to convert
 against and to shut the real money that will
 go into the Spanish treasury from this loan, even
 to barely sufficient for the wants of the Government
 for 1808, and we consider it a desperate
 affair. The Italian market is reported
 with great difficulty. Sugar is for in the
 market, from the colonies being rather scarce. The
 coffee has taken a start. If it appears
 the crop in Brazil will be very deficient.
 Cotton keeps up our prices, from the little
 quantity the crop is only equal to last year
 which was not sufficient. It seems we shall
 therefore have high prices for the coming year.

My dear Hope also

Dear Sir

We have had the
honour of receiving your private letter
of the 2^d inst: and should exceedingly
be likely to come of the Boston Loan
of which there is no immediate appearance
we shall not forget your observations on
the subject -

We think it may interest you to know

that coffee continues to advance here:
Brazil coffee is 3/4 higher than last week;
and the advance we have today from
P. S. Santos to the 8th October seems to
settle the question of a diminished crop
in a satisfactory manner - we should be glad
to receive a full valuation of our parcels
in your hands -

The funds were paid today but no
new money more abundant - Messrs.
Shepley & Co have offered us a note

602.
I have in a Lisbonian loan & another
having made the same offer to you - as
you are well acquainted with Portugal
securities & resources you will be much
obliged to us by giving us your opinion of
this stock & the prospect of placing it -

Dear Sir,

When your private letter of the 29th ult. as to last, and take due note of their contents. Herewith I send an offering of what you have done in relation to them?

Costs in note your statement your letter in words say are more in favor of a later date again say 1835. to 1836. but your price, will probably increase a little and afterwards decrease, when the very highest quotations, come from you as to the market. State prices with no doubt go against them, and in this will be a great help. Consequently we have to hold out then the market will come up again with you. Cordially desire us to hold a parcel at 10 p. per lb. or know what purpose there is of obtaining it.

The balance that is owing.

R. Dillan, we doubt of the cargo of the Solomon ship, will even the same as us. It will be well for us to be ready to, keep the contents of any profits, he
